

TECHNOLOGY FROM USA

Lubricant engine oil GA 4T

DNS SCOOTER
SAE: 10W40

API SN - JASO MB

DENSYNTECH (technology to increase optimal engine power)

- It is specially formulated for the new 4-stroke scooter engine, made from semi-synthetic base oil and synthetic additives from the United States.
- Products meet API SN and JASO MB standards.

Product features:

- Maintains optimal engine protection and anti-wear when starting.
- Maintain engine clean, high heat resistance and oxidation resistance.
- Excellent anti-corrosion and anti-rust properties.
- Especially with the exclusive additive system for scooters that saves fuel, accelerates quickly, gives customer a feeling of comfort, lightness, smoothness, ...

Use:

- Suitable for High-speed scooter engines operating in extreme conditions, of brands: Honda, Kawasaki, Suzuki, Yamaha, SYM ...

Safe to use:

- Please read MSDS before use.
- Keep out of reach of children.
- Limit contact with skin and and limit inhaling oil mist.
- Wash hands with soap and clean water immediately after use.
- Keep away from heat, sparks and open flames, even from empty bottles.
- Avoid spilling oil into drains and rivers.
- Confidential information is a trade secret.

Storage and transport:

- Transport by vehicle with roof and vertical storage of the product.
- Store in a cool, dry place.

Manufactured according to standards: 50-2018 / Denis oil .

Specifications:

Characteristic	Test method	Test result
Kinematic viscosity at 100 °C	ASTM D 445	Min 12,5
Viscosity index (VI)	ASTM D 2270	Min 135
Base number by potentiometric titration (mg KOH/g)	ASTM D 2896	Min 7
Flash point (COC), °C	ASTM D 92	Min 260
Foaming characteristic at 93,5 °C , MI	ASTM D 892	Max 50/0
Water content (by vol/ mass), %	ASTM D 95	Max 0.05

- *The above are typical figures with generally accepted manufacturing tolerances and not specifications.*
